The circus rolled into Kamp KACE today with staff, parents, and 129 performers-in-training. Parking was at a premium, but with a little creativity everyone got a spot. Kampers made like sea lions cruising through their swim tests and barking at friends they hand't seen in a year. After the chaos settled, kampers released doves as part of the annual memorial

service. It was especially powerful this year because we honored Grace, who we lost this year. Spaghetti dinner was followed by the first of many exciting sessions, some of which were circus act training. It was tough, but kampers were rewarded with a show performed by Cirque Du Jour, the talented group that is working with them all week. The incredibly sweet performance was only matched by the sweet taste of ice cream provided by the lions afterwards. The first night came to a close around a kampfire with skits and some of our favorite Kamp songs. Here's to the 30th!

Grace -Taylor Woods

From the day Grace was diagnosed with cancer in 2011, I never thought its impact on our lives could be anything but negative. That changed when we discovered Kamp KACE, the sliver lining in the seemingly never-ending battle. Grace and I both found a place we never knew we needed. A place filled hope, friendship, and understanding. Grace's resilient spirit inspired so many people in her life, but at Kamp she found friends with spirit to match her own and understand her struggle far more than I ever could. I'm so grateful that I get to call this Kamp a home and my family. Grace will never be gone at Kamp KACE, because we keep her alive anytime we find the strength to continue to fight like she would have.
