Every great day starts with caramel rolls and that is exactly what fueled the Kampers as they dominated another banner day at Kamp. Morning sessions were followed by a much needed rest period. Several cabins lounged in the shade as a taekwondo demonstration took place in the meadow. Open rec time consisted of finishing up crafts and finalizing their newly developed circus talents in preparation for the big show. Mary Kay consultants pampered the

ladies in preparation for the dance. Everyone had a blast busting-a-move and shaking their groove-thangs at the hand of DJ Dudley (aka Brad.) Wishes were shared, friendship sticks were burned, and tears were shed at the emotional final campfire. The night ended with an incredible fireworks display. Boom!

### Kamp KACE: Still the Greatest Show on Earth

30 years have come and gone since Dr. Tillish first brought Kamp KACE into the lives of pediatric cancer patients. The location may have changed but the love, support, healing, and comfort still remain at the core of Kamp. Fun Fact: Jeremy Vandal was a kamper at the 1st year of Kamp KACE and is back as a counselor for the 30th.

### Hair Continues to Fall at Kamp KACE

Counselor Steven spent the last 4 years growing his lovely locks; during that time he only used moose once. (Maybe that's why he was voted best hair at Kamp.) The "official" stick measured hair length was 12 inches, enough to cut and donate. Steven grew & donated his hair to honor his brother, John, who lost the battle with cancer years ago when they were still kampers.
